FRED and ARLENE TOLMAN

Fred and I were both born in Western New York State and spent our lives there until World War II, when he enlisted in the U. S. Navy. While on duty he was injured, so after two years he was discharged with 100% disability. He could not work at regular jobs, so I helped people with their family histories as well as working at many other occupations. I had a sewing shop, Hung wall paper, Knitted and crocheted, did farm chores, and most anything to make a living.

I was chapter regent of the Daughters of the American Revolution for two years, started a genealogy group in the local town and helped with their library. Fred went on many trips with me and we copied many cemetery inscriptions back east. I also compiled a book of all the cemetery inscriptions in Kerr County, Texas, when we lived there.

In 1951, our son was diagnosed as having hemophilia. The doctor said it was inherited. We knew very little about our backgrounds, so I started writing to relatives and soon received a letter with the information that I had a grandfather who was in the Revolutionary War. This started both Fred and I wondering just what we could Find. A cousin then sent us 13 lines through and into royal lines, where we found that Queen Wilhemina of Holland was a carrier. We also discovered that Fred and I were eighth cousins.

In 1965 or so, we contacted William O. Tolman of Bountiful, Utah. His cousins, Alvin and Phyllis Tolman, came to New Mexico to see us. They were very impressed with all the material we had gathered on our lines. About 1968, we sent all our records to Utah and they are now stored in the Tolman Family Home located in Bountiful, Utah. We had made many trips to the New England area and also other states searching for records. The Bountiful cousins had not been aware of our branch of the family.

After Fred passed away 16 December 1994, I was asked if I would like to come to Bountiful to help with the records. It was June 1995 that I drove up and now live in the Tolman Family Home. This year (1996, and over 80 years old), I took a trip by myself and drove over 5,000 miles to Western New York to visit friends and relatives.

Love to all, Arlene Estella (Kelly) Tolman, September 1996.

GERALD and CARYOL TOLMAN

Interests from my youth in California were outdoor oriented, especially hiking, fishing and camping. My education includes an AA from Compton Junior College, a BS from the University of California (Berkeley), MS and teaching credential from the University of Southern California (USC).

It was when I first married in 1962 that I began to collect information on my ancestors. The prospect of being a parent myself, or that my wife Nancy Lou Williams was keenly involved in her family research, or more probably both, which sparked this passion for knowing my people. In about two years I was asked to be an instructor of a genealogy class. It was more the combination of that I was a High School teacher (of Mathematics) and was actively involved in genealogy, than my years of experience that led to this position. As all teachers might do, there was an assignment each week for the students. We also had a small group who would car-pool to the Los Angeles Public Library one night each week.

During this period from 1963 to 1969, I was also a Boy Scout leader and Explorer Advisor. In effect, these activities were all fun and games, so to speak, since all these activities were what I enjoyed doing.

This lifestyle would change when my wife Nancy was killed in an automobile accident while on vacation in Mexico in 1969. As father and mother to four young children from six months to five years of age, all other activities slowed considerably. Within a year I married Caryol Maxine Archibald, who has been a godsend to me, and a wonderful mother for my children.

As time passed I slowly got back into my search for roots. This includes volunteer time in the Garden Grove Family History Center assisting patrons in the use of the "Family Search" computer program. Knowing there was an active "Tolman" family organization in Utah, I chose to work on my other lines, so that my efforts would not be duplicating that which was being done by this organization. This too changed, when I met and talked with Arlene Tolman and others at the Tolman Home in 1995.

ACKNOWLEDGMENTS:

There are few accomplishments or endeavors that have been achieved without the benefit of standing on the shoulders of someone who has gone before. This compilation of records is certainly that: it is the composite efforts of many past ancestors and some current cousins. To avoid omitting a name of an important contributor, a complete list of all who have helped gather and preserve the histories and vital records included in this work has not been attempted. The Thomas Tolman Family Genealogy Center, (TTFGC) has graciously opened its records for this project. Also, the importance of a lifetime of dedication and efforts of Fred and Arlene Tolman cannot be overstated. Until his death on 16 Dec. 1994, Fred and Arlene had spent the previous 41 years traveling throughout the United States gathering information on Tolmans. Arlene and Fred began their quest when trying to find from whom their son may have inherited his medical problems. As time progressed they began to envision a plan to publish a book on all the records they found on the family. If you are reading this, then this dream has come to fruition.

The TTFGC is a two story home located at 2937 South Orchard Drive, Bountiful, Utah. The home was built through contributions from family members under the leadership of William Odell Tolman. This home provides a place to store the records of the descendants of Thomas Tolman as well as a center for the family organization to meet. Before Arlene's records were added, these consisted mainly of the descendants of three brothers who went to Utah in 1848 and their direct line of ancestry to Thomas Tolman (1608).

The printing of this book has been possible through the contributions to the Thomas Tolman Family Genealogy Center from Elmer Judson Tolman. E. J., as he is known at the center, has been a frequent contributor since home's construction.

METHODS:

The records on file at the TTFGC, which include the seminal work of Arlene Tolman, are the primary source for this publication. Starting with the children of Thomas (1608) as the first generation, then each of their children's families were added as the next generation and so forth, one generation at a time. And so, if your family is not included, it is because a record was not on file in the TTFGC to link it to Thomas (1608).

The computer records of the Church of Jesus Christ of Latter-day Saints, the Ancestral File (AF) and the International Genealogical Index (IGI), were also used as a secondary source to fill in some vital records. The AF does not list information on individuals who were living when their vital statistics were submitted. This limits the use of these records because these names are without dates or places, and therefore not included in this edition. The initial efforts of this compilation were attempted from only the AF and IGI. Where ancestral lines were not connected in the AF, it often proved to be little more than guessing which of the Marys or Elizabeths listed in the IGI were married to whom. This was not satisfactory for the purpose of this book.

The records included are the best available information at the time of publication. There will be errors and these can be rectified only if the reader notifies the TTFGC. To wait until there were no errors would be to never print anything. Unless you were contacted and submitted information for this effort, you will have information that is not included. Your input for corrections, additions, and extension of family lines

for future editions of "The Descendants of Thomas Tolman" is anticipated. Where there is conflicting information, Arlene Tolman was the final word as to which is presented as correct with a footnote noting other opinions. It is hoped that all such disputes can be resolved through future, yet unknown, data. Please send all correspondence and family records to the TTFGC to the above address.

Abbreviations were avoided unless space was a problem on a specific line. Massachusetts is used rather than MA and abbreviations of non English names are impossible to discern. The exception to this is for the source(s) of information. <A> is Ancestral File and <B> is International Genealogical Index. <C> is a small book of descendants of Thomas Tolman (1608), titled, "Thomas Tolman of 1630 in America", found on the shelves of the main Family History Library in Salt Lake City. It does not appear to be done by members of the Thomas Tolman Family Genealogical Center since it does not trace their line of descent. <T> is a record that has been researched and published by the Thomas Tolman Family Organization. <X> is a record on file at the Thomas Tolman Family Genealogy Center. These <X> are records submitted by living individuals for their own families, the research by family genealogists, and those of Arlene. A list of Arlene Tolman's references is given at the end of the text.

Some individuals in these records <X>, had no dates of birth to identify them and so an estimated date was chosen to give them a reference date for chronological placement in the index. Dates of this kind are in brackets such as [1820] rather than parenthesis (1820). Also, in order to keep this project finite, it was decided to include only those descendants born of the surname Tolman and their children. To include descendants through the daughters of Thomas (1608) [who were Collins, Leadbetter, Lyon, Royal, and Tucker] would have made this project many volumes of the size of the text you now view. Yes they are also descendants, but that is another project.

INTRODUCTION:

One evidence of an advanced civilization is the keeping of records and the logging of history, in particular, the maintaining of ancestry. Whatever the source of this compelling drive for people to know their roots, it is that same drive that the "Descendants of Thomas Tolman" is published. It also preserves these records so that future generations may know their ancestry a little better. Thomas was an early immigrant [1635, see note on Thomas (1608)] to the new world from England. There have been many of his descendants involved in genealogical research, so it would seem that it was high time to publish the Tolman connection to America. It is a project that "somebody ought to do" as my son Paul said when he could not find such a text in the Family History Center in Salt Lake City. From past experience, somebody usually means nobody, unless you do it yourself. So the seed was planted to start the compilation of the records that are on file in The Thomas Tolman Family Genealogy Center located in Bountiful, Utah. It was fortunate for this project that Arlene Tolman had just arrived in the center on other business when this work commenced, and she agreed to provide her consulting expertise.

Thomas Tolman, christened 1608, was the first Tolman to immigrate to America from England and may have been the only Tolman to have come from England in the early period of the new world (before 1800). Unless evidence comes forth to indicate otherwise, all Tolmans in America may probably be cousins or closer in relation through this Thomas. It is beyond the scope of this text to be a photo album or a collection of histories. The presentation of vital statistics with correct descendant linkage was the main goal and it is hoped that others will take on the monumental task of publishing historical events of this family in America.

There were many historic tidbits in these records that added to the feeling for the character of these our cousins. While reading and typing the names of these ancestors, the thought arose that some of these may have been scoundrels and some saints. Now, having passed away, they were somehow equal. Even without historical data, glimpses of their lives and times can be seen. One example of this is that during the early 1800's many of their children died young due to cholera and other common diseases, the kind of

trial that we seldom witness today. Another example is the avalanche of divorces in the 1900's rarely done in the years before, indicating a change in the family life of this century that was a different trial in life. The Future, well, we shall see.

Just one paragraph of a historical note from these records that gives some insight for the character our Tolman ancestors is that of Benjamin Tolman (1756). Who "was a very industrious farmer," and who fought in the Revolutionary War. Then, no more will be written concerning history.

"One of the earliest and bravest Rev. Soldier & took part in the battles of Bunker Hill, Bennington, Stillwater and Saratoga and other decisive engagements. Before the Revol. he had taken part in the French and Indian wars, so that he well carried out the brave and patriotic spirit of his ancestors in lands beyond the seas. It is said that when he had become very old, and his mind was somewhat enfeebled, that he would march briskly over the hills when the thought that his country had need of him came to him. And when he was found and brought back he would cling to his old flintlock gun and beg of his friends to let him march under Stark once more."

This peek into the character of Benjamin reveals his strength of dedication to his friends and ideals. Having lost a little of his ability to think rationally, he was reacting on instinct, which provides the best picture of his true inner self.

May this small effort add to those efforts of our ancestors and living cousins to draw us near to those who have past from this life. Let us not forget them.

Today, Dorchester is part of Boston. This map, depicting the location of Dorchester with respect to the American and British positions around Boston during the Revolutionary War, provides a reason why there were many Tolmans in that conflict.

NOTE: Thomas (1608), by family tradition, had been thought to have come to America in 1630 and is published as such in many publications. However, this date could never be verified, and the actual year was later shown to be 1635. From Arlene Tolman's research, "In the History of the Town of Dorchester, Suffolk, Mass., by Ebenezer Clapp Jr., it is stated that in the second migration from England in 1635,

Thomas Tolman was among the persons in the 'James' and 4 other vessels. Many of Dorchester's early settlers came in this time period."

Another long held tradition was that Thomas (1608) was christened in Salcomb Regis, Devonshire. This, also, could never be verified and many years of searching in old English records yielded nothing to confirm this tradition. A Thomas Tolman (mother Issabel Towlming and father Richard Parkenson) was christened in Lancaster on the 9th day of the 12th month of 1608, the known date of our Thomas (February was the 12th month in 1608). This was presented to and accepted by the TTFGC in the early 1990's as the lineage of Thomas (1608). The parents listed in the TTFGC of Issabel Towlming [mother of Thomas (1608), born about 1588 in Lancaster], were William Towlminge and Elizabeth.

The order and dates of birth for the first generation may never be resolved to the satisfaction of everyone, due in great part that the original Dorchester vital records were lost in a fire in 1657 in the house of Thomas Millet. All the records before that fire are reconstructed dates based on the recollections of those who were involved in that endeavor.

From the best available information that Arlene could find, the following rational was used to arrive at the choice of the order and dates of birth of the first generation. The only discrepancy on Thomas is that he is placed as the first child rather than second as listed in past records, since Thomas (1608) arrived in the new world with only one child, Thomas (1633), and therefore the only child born in England. Sarah (1636) is second rather than fourth and born in 1638, which is from the record on the Leadbetters of Dorchester. Third is Hannah (1638), died in 1729, aged 91, which would make the date of 27 Jul 1642 her christening date, as the 1642 date is not designated as to birth or christening. The two dates (1638 and 1642) have given rise to the possibility of two Hannahs. One side of this discussion feels that no possible children should be left out for various reasons, and the other side feels that a second Hannah should be added only when it can be proven. The fourth child, Mary (1640), was married about 1659, and all agree that her first child was born in 1660. Mary is also listed as born about 1630 and married about 1650, but having her first child born 1660, a ten year gap, seems unlikely. A christening date of 20 May 1751 is given for Mary. Fifth is John (1642), rather than the third child and born in 1636. Neither Ruth nor Rebecca have any dates of great controversy, other than additional information that Ruth was chr. 7 Dec 1644, and Rebecca was chr. 30 May 1647, both in Dorchester.

NOTE: Lucy (1824) is listed as md (1) to George Osborne Brannen or William Osborn Brannen.

Judson (1826) was known as Judson in all TTFGC publications, without a middle name, until about 1990. It was then proposed that he was Judson Adonirum, more than 70 years after his death. The rational was based on eight church records where a sibling or a clerk recorded the sibling's father as having a middle name or initial. My own son, who has my first name has been recorded by church clerks from time to time as "Junior" where he is not, as our middle names are different. It is easy to see how researchers, years after our deaths, could conclude he was a "Junior" because there are many times where this was erroneously recorded as such. It would seem prudent to consider the names used by Judson (1826) himself, in his four marriages, on all of the hundreds of patriarchal blessings which he gave, or on legal documents that he signed. His son Judson Adonirum Tolman (1850) became a well known prominent church leader, so that clerks could have easily made the assumption that the son was named after the father, not only with the first name, but also the middle. Evidence that indicates that Judson (1826) did not have a middle name is that his daughter Myra T. Patterson, who was his personal secretary as well as family genealogist for years, did not give him a middle name. Myra may have filled out more family group records than any other Tolman descendant of Judson. She certainly knew the importance of including a middle name, if one existed, to identify an individual. Some of you may wonder why so much space is given to this point, but to those who are closely related, this may probably be a sensitive issue. To be conservative, Judson (1826) is just Judson in the above account until there is more research on this matter and/or we see Judson's (1826) signature with a middle name.

Vital records do not indicate that Lucy (1824) had a middle name. Publications by the TTFGC has also proposed that Hewitt was Benjamin's second name where vital records show none. Also, William is proposed as George's (1833) second given name rather than Washington as well as Adonirum as James' (1836) third given name in past publications of TTFGC.

NOTE: George Burton Tolman (1892) was named Ivan Tolman at birth, but was "renamed" , that is, called George Burton, after his mother died. He, being the father of Fred, Arlene's husband, was a difficult hurdle to cross until Arlene learned that Ivan and George Burton were the same. Fred and Arlene had his birth certificate changed to George Burton. This information is related here so that future researchers who may stumble onto Ivan will not think a mistake was made and rename George Burton.

NOTE: George Burton Tolman (1892) was named Ivan Tolman at birth, but was "renamed," that is, called George Burton after his mother died. He, being the father of Fred, Arlene's husband, was a difficult hurdle to cross until Arlene learned that Ivan and George Burton were the same. Fred and Arlene had his birth certificate changed to George Burton. This information is related here so that future researchers who may stumble onto Ivan will not think a mistake was made and rename George Burton.
